

At **Integral AV** we have forged excellent links with a number of Housing Associations in the Midlands region.

As an example of the work undertaken to date, in December 2006, we won the contract to completely revamp the Boardroom at Accord Housing, our brief was to provide a easy to use audio visual system, one which offered value for money but also brought a 'state of the art' approach to presentation delivery.

The resulting system delivered the latest LCD display technology with pin sharp sound reinforcement, bespoke complimentary furniture & wireless LCD touch screen for a simple & dynamic control of multi-format presentations at the press of a button.
