

Media Wall

An attractive modular system with revolving panels and cupboard doors that open to reveal any configuration of presentation, training or conference equipment you choose.

A choice of audio-visual equipment, including rear projection screen or plasma screen, computer display, DVD, TV, VCR, video conferencing, flipchart, magnetic dry wipe writing surface and OHP and trolley.

A matching pelmet with a built-in sound system and front projection screen can also be included in the system.

Full control of the media and presentation environment can be achieved via a wireless touch screen panel.
