

Introducing Integral AV

a Audio Visual integration company for the NHS

We let our work do our talking but we thought we would share the possibilities with you.....

One touch Boardroom solutions, integrating the operation of your audio visual equipment, lights, blinds & air conditioning under one wireless LCD touch screen

Case Study: NHS West Midlands, St Chad's Court, Birmingham

LCD Projection in Training & Meeting rooms with Interactive whiteboards, audio reinforcement, rail wall systems & complementary furniture

Case Study: NHS West Midlands & Birmingham & Solihull Mental Health

Large screen plasma integration within a bespoke reception wall for a high impact 'welcome' to your visitors

Case Study: Thermo Fisher Scientific, New Head Office

Audio Systems including desktop conference systems, radio microphone systems & induction loops for the hard of hearing

Case Studies: Stafford & Rural Homes HQ & NHS West Midlands
Main Conference Rooms

Distribution of AV using your existing Cat 5 infrastructure. Images can be controlled at a press of a button from your PC & through a combination of a central matrix switcher, transmitters & receivers any AV source can be sent to display devices throughout your office building

Case Study: Instarmac Limited, New Head Office

Large Screen Plasma display up to image sizes of 103" diagonal with sound reinforcement & bespoke cabinet to discretely house the AV equipment

Case Study: Homezone Housing, Boardroom

Call us today on **0844 5616001** to discuss how Integral can improve the impact of your audio visual delivery
